Customer Agreement

- A. As a qualified Silicon Valley Power (SVP) Customer, I agree to indemnify the City of Santa Clara, its City Council, commissions, officers, employees, volunteers, Strategic Allies, and agents from any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and reasonable attorney's fees in providing a defense to any claim arising from this Rebate.
- B. I certify that I will purchase and install the indicated energy saving equipment or implement the indicated energy efficiency measures during the current SVP program year. I will provide a copy of the itemized proof of purchase and installation.
- C. I agree to verification inspections by SVP representatives or its third party contractors of both the sales transaction and product or measure installation.
- D. I certify that the information provided on this rebate application is true and correct.
- E. I understand that the installed equipment or measures must be operational and producing energy savings for a minimum of five (5) years after the project is completed. If the equipment or measures are removed or otherwise not producing energy savings, I understand that I may have to return a prorated amount of the rebate funds received.
- F. I certify that I have not received any other rebates for the equipment or measures indicated on this rebate application.
- G. All pages of this Application are included in and are part of this Agreement. This Application embodies the entire agreement between SVP and the Customer.
- H. Silicon Valley Power's Public Benefit Programs operate under a July-June annual budget calendar. Rebate funding is limited by the annual budget. Rebate applications are accepted on a first come, first served basis until the rebate budget is expended.
- I. Customer is limited to receiving a maximum of \$1,500,000 of rebate funds in the 2024-2025 program year (July 1, 2024, through June 30, 2025). This includes incentives received through all SVP programs. After June 30, 2025, the rebate funds maximum is subject to change. Projects approved in the 2024-2025 program year that are completed after June 30, 2025, will be counted toward the rebate funds maximum in effect for that year.
- J. Customer is limited to receiving a maximum of \$750,000 of rebate funds for similar measures installed at a single facility (stand-alone building). This limitation applies for a period of five (5) years.
- K. Rebate payment of \$2500 or less made to the Customer will be issue as a bill credit.

I have read and understand this Application, including the Program Rules and Eligibility Requirements, and I agree with all of its provisions.

Silicon Valley Power 2024-2025 Lighting Rebate Application

1. Rebate Amount

- 1.1. See rule 2.14 for complete technical requirements for LED fixtures.
- 1.2. Use the SVP lighting rebate calculator to estimate the energy savings and rebate amount for your project. The lighting rebate calculator can be downloaded from the SVP website. Instructions for using the rebate calculator can be found on the first tab of the spreadsheet.
- 1.3. The bonus rebate is only eligible for LED fixtures replacing fluorescent tube lamps. For all other replacements, please leave the bonus rebates column blank.
- 1.4. The bonus rebate is only eligible for projects pre-approved on or after September 1, 2022, and completed by December 31, 2024.
- 1.5. Submit an electronic version of the rebate calculator to SVP for review and approval.
- 1.6. For help with using the rebate calculator and determining your potential rebate, please call 408-615-6650.
- 1.7. Enter savings from SVP lighting rebate calculator below:

Annual Energy Savings (kWh)	Peak Demand Reduction (kW)	Potential Standard Rebate	Potential Bonus Rebate	Total Potential Rebate
		\$	\$	\$
			Qualifying Equipment Cost	\$

Approved Lighting Measure Savings and Rebate (to be completed by SVP):

Approved Annual Energy Savings (kWh)	Approved Peak Demand Reduction (kW)	Approved Standard Rebate	Approved Bonus Rebate	Total Approved Rebate
		\$	\$	\$
Annual CO2 lbs. Reduction				\$

Silicon Valley Power 2024-2025 Lighting Rebate Application

2. Program Rules and Eligibility Requirements

General:

- 2.1. The Lighting Rebate Applications must be pre-approved by SVP prior to installation of equipment. SVP pre-approval consists of written confirmation from SVP to the SVP Customer. The pre-approval will define the approved rebate amount and establish the rebate deadline for the final post-installation inspection.
- 2.2. SVP has the right to inspect the facility before and after the equipment is installed.
- 2.3. For space(s) with variable schedules, customers must provide the program schedule for each space.
- 2.4. For building additions and changes of space use type, the installed lighting power must be 10% less than the code lighting power allowance (LPA) for the space(s).
- 2.5. Equipment purchased for inventory or resale does not qualify for funding. Equipment must be new. Used and/or rebuilt equipment is not eligible.
- 2.6. Rebate amount is limited to 100% of the cost of the eligible equipment.
- 2.7. Equipment must be installed and operating at the facility address listed on page 1.
- 2.8. Equipment technical specification sheets must be submitted. The specification sheets must include the make and model number of the product as listed on the relevant qualifying product list.
- 2.9. Projects are to be completed within 6 months of the date of pre-approval. Projects requiring more time must submit a request for an extension. This request will be approved or denied at SVP's discretion.
- 2.10. A post-installation inspection must occur within 1 month of the installation date.
- 2.11. Detailed, dated copies of all invoices must be submitted within 2 months of installation. Invoices must include the make and model number of the product installed, as listed on the relevant qualifying product list.
- 2.12. The rebate recipient will be responsible for any tax liability resulting from the rebate payment.
- 2.13. SVP will not reimburse taxes paid for a project.

Technical Requirements:

Projects must produce energy savings to qualify for a rebate. Only the following technologies are eligible for rebates:

LED Fixtures Retrofit Kits and Lamps

- 2.14. LED fixtures, retrofit kits, Linear replacement lamps (UL Type A), LED Tubes with internal drivers that bypass the ballast (UL Type B), lamp style retrofit kits with an external driver (UL type C), mogul base (E39) replacement lamps, and 4-pin plug-in lamps qualified by Design Lights Consortium (DLC) are eligible for rebates.

www.designlights.org

- 2.15. T8 LED replacement lamps of all other lengths qualified by DLC are eligible for rebate.
- 2.16. T5 LED replacement lamps qualified by DLC are eligible for rebate.
- 2.17. LED Screw-in lamps and plug-in MR style lamps Downlight Fixtures qualified by ENERGY STAR® and intended for commercial use are eligible for a rebate. To find qualifying products, visit the ENERGY STAR® website and use the Product Finder tool, or use the following links for qualified products:

ENERGY STAR Light Bulbs Product Finder:

<https://www.energystar.gov/productfinder/product/certified-light-bulbs/results>

ENERGY STAR Light Fixtures Product Finder:

Silicon Valley Power 2024-2025 Lighting Rebate Application

Other Lighting Technologies

- 2.18. Lighting technologies not listed above may be eligible for rebate, subject to review and approval by SVP. Please contact an SVP energy engineer regarding the eligibility criteria for specific lighting technologies.
- 2.19. Starting Jan. 1, 2025, fluorescent lighting products are ineligible for rebates.

Delamping

- 2.20. Delamping is the permanent removal of existing lamps from existing fixtures. Example of permanent removal includes removing unused lamp holders or installation of a two-lamp ballast to replace a four-lamp ballast. It is recommended that no more than half of the existing lamps be removed from each fixture. Customers are responsible for deciding whether delamping will maintain adequate light levels.

Networked Lighting Controls

- 2.21. Networked lighting control (NLC) systems that enable energy savings beyond the capability of standard lighting controls (as required by code) may be modeled in the SVP Lighting Rebate Calculator.
- 2.22. NLC systems qualified by DLC are eligible for rebate.
- 2.23. Lighting design plans for the NLC system retrofit must be submitted to SVP for review and approval.
- 2.24. Measurement & Verification (M&V) is required to validate the estimated control savings values used in the calculator. A M&V plan must be submitted to SVP for pre-approval.
- 2.25. At least four weeks of post-installation, hourly data must be submitted to SVP. The final rebate amount will be determined by SVP based on M&V results and to reflect the actual energy savings achieved.
