

Residential Electric Vehicle Charging Station Rebate Rules

Phone: (408) 244-SAVE (7283) | Fax: (408) 244-2990

REBATE RULES

Eligibility

- This rebate is **available only to current Silicon Valley Power (SVP) residential customers who are under a residential rate schedule**. Landlords may participate if the utility account holder meets all program guidelines.
- The charging station(s) must be installed at the Customer's service address.
- Customer intends to operate the charging station at the listed service address for its useful life.
- Must provide VIN number(s) for a plug-in vehicle that will be using the charging station.
- Submit the rebate application within 60 days of the building permit issuance or purchase date if no permit is required.

Payment

- Rebate amounts are **up to \$550 per charging station**. An electric vehicle charging station with multiple ports, or plugs, is considered one unit and is eligible for a single rebate.
- **Level 2 charging stations that are either hardwired or not hardwired (i.e., NEMA 14-50 receptacle) are eligible.**
- Limit of two (2) charging station rebates per residential account.
- The rebate amount cannot exceed the purchase price of the charging station plus installation and permit fees, excluding taxes or shipping costs and additional incentives received by Customer (i.e., other rebates or grants).
- Rebates are valid for purchases made with United States currency only.
- Rebates up to \$600 will be applied as a bill credit within 2 billing cycles after all required documents have been received. A check will be mailed for rebates greater than \$600.
- Rebate checks will typically be mailed within 2 to 3 billing cycles of receiving a complete application and supplemental documents.

Charging Station Requirements

- **Must be a Level 2 (240-volt) charging station.**
- **Level 2 charging cords and mobile connectors are not eligible.**
- **Chargers not hardwired must be Wi-Fi enabled.**
- Splitters are not eligible.
- Must be a new unit. Charging stations that are portable, resold, rebuilt, received from warranty insurance, or promotional offers are not eligible for rebates under this program.
- Must be certified by Underwriters Laboratories Inc. (UL Listed), ETL Listed, or approved by the City of Santa Clara Building Department.

Building Permit Requirements

- All electrical work must be in accordance with local codes, permitting, and inspection requirements. If your project requires a building permit, proof of permit issuance from the City of Santa Clara's building department must be submitted to receive a rebate. Please call (408) 615-2420 or visit santaclaraca.gov/index.aspx?page=2447 for more information.
- Installing a Level 2 charging station may require a permit from the City of Santa Clara's Building Department.
- All electrical work must be in accordance with local codes, permitting, inspection requirements, and any American Disability Act (ADA) requirements, if applicable.
 - Please visit the City of Santa Clara's Permit Center website or call (408) 615-2420 for EV charging permit requirements.
 - A permit is required for a new circuit installation which would include either an outlet or hard-wired EVSE. An over-the-counter permit is not required for non-hardwired level 2 charging stations that will be plugged-in to an existing outlet.
 - If there is an existing circuit that is not being modified and you are only changing the outlet for a hard-wired EVSE that would not require a permit.
 - If you are making an upgrade to an existing circuit, which would require a larger breaker and conductors in addition to the hard-wired EVSE, that would require a new permit.
 - Please refer to santaclaraca.gov/home/showdocument?id=51734.

Residential Electric Vehicle Charging Station Rebate Rules

Phone: (408) 244-SAVE (7283) | Fax: (408) 244-2990

Terms and Conditions

- Customer agrees that all credits allowed by the State of California's Low Carbon Fuel Standard (LCFS) credits program are the property of and belong to SVP. Customer agrees not to take any actions to generate such credits to its account. Customer further agrees to assign any such credits to SVP.
- Customer agrees that SVP reserves the right to inspect the installation premises of the Level 2 charging station for 24 months after receipt of a complete application. SVP may deny issuing the rebate if this condition is not met by the Customer.
- SVP disclaims any liability, loss, or damage that may arise as a result of Customer's participation in this program.
- SVP is not responsible for any taxes that Customer may incur as a result of participation in the Residential Electric Vehicle Charging Station Rebate program. Please consult your tax advisor with questions or concerns.
- Customer is solely responsible for ensuring all products are installed to the manufacturer's specification.
- By providing your information through the rebate process you allow SVP to conduct research and analysis about electric vehicle use and user preference.

Qualifying measures and rebate values are subject to change. Visit siliconvalleypower.com/EV or call (408) 244-SAVE (7283) to verify before purchase or installation.
