### Customer Agreement

- A. As a qualified Silicon Valley Power (SVP) Customer, I agree to indemnify the City of Santa Clara, its City Council, commissions, officers, employees, volunteers, Strategic Allies, and agents from any claim, injury, liability, loss, cost, and/or expense or damage, including all costs and reasonable attorney's fees in providing a defense to any claim arising from this incentive.
- B. I certify that I will purchase and install the indicated equipment or implement the indicated electrification measures during the current SVP program year. I will provide a copy of the itemized proof of purchase and installation.
- C. I agree to verification inspections by SVP representatives or its third party contractors of both the sales transaction and product or measure installation.
- D. I certify that the information provided on this Application is true and correct.
- E. I understand that the installed equipment or measures must be operational and reducing greenhouse gas emissions for a minimum of five (5) years after the project is completed. If the equipment or measures are removed or otherwise not reducing greenhouse gas emissions, I understand that I may have to return a prorated amount of the incentive funds received.
- F. I certify that I have not received any other incentives for the equipment or measures indicated on this Application.
- G. All pages of this Application are included in and are part of this Agreement. This Application embodies the entire agreement between SVP and the Customer.
- H. Silicon Valley Power's Programs operate under a July–June annual budget calendar. Incentive funding is limited by the pilot program budget. Pilot program Applications are accepted on a first come, first served basis until this pilot program is fully subscribed.
- I. Customer is limited to receiving a maximum of \$100,000 of incentive funds under this pilot program.
- J. Rebate payment of \$2500 or less made to the Customer will be issue as a bill credit.

I have read and understand this Application, including the Program Rules and Eligibility Requirements, and I agree with all of its provisions.

# 2024-2025 Silicon Valley Power Multifamily Boiler Electrification Incentive Pilot Program

## 1. Participant Eligibility Requirements

Multifamily residential complexes that meet the following requirements are eligible to apply for an incentive.

- 1.1. Rental apartment complexes and condominium complexes (e.g., condominiums individually owned and managed by a Homeowner's Association) are eligible for this program.
- 1.2. Boiler must serve at least 25 dwelling units.
- 1.3. Dwelling units must be individually metered for electricity.

## 2. Project Eligibility Requirements

- 2.1. All proposed projects are subject to review and approval by SVP.
- 2.2. Projects must reduce greenhouse gas emissions and replace a natural gas fired boiler system with an energy efficient electric system.
- 2.3. Projects are subject to pre- and post-installation site inspections by SVP.
- 2.4. Final project inspection must be completed, and all required documentation must be submitted by the deadline listed in the pre-approval notice from SVP. Otherwise, the incentive payment may be forfeited. If the project will not be completed by the deadline, the Customer must contact SVP at least 2 weeks before the deadline to request an extension.

## 3. Available Funding

- 3.1. The maximum funding available for a single project is \$100,000.
- 3.2. This pilot program is available to 3 participants on a first come, first served basis. Funding is limited to one incentive application per customer.
- 3.3. Approved funding will be paid according to the schedule provided in the project's pre-approval notice.
- 3.4. The incentive will cover up to 100% of the incremental cost up to \$100,000. The incremental cost is defined the cost to install a high efficiency electric boiler system minus the cost to install a new natural gas fired boiler system.
- 3.5. Other rebate or grant offers may not be used in conjunction with this incentive.

## 4. Customer Submitted Project Information

- 4.1. The customer shall submit the following information about the project.
  - 4.1.1. Provide detailed scopes of work for a replacement gas boiler system and the proposed high efficiency electric boiler system. The scopes of work should include a detailed quote with parts and labor listed separately.
  - 4.1.2. Submit a proposed timeline for completing the project.
  - 4.1.3. Submit greenhouse gas reduction and energy impact calculations. SVP energy engineers will work with the customer and contractor to develop a plan to measure and verify the greenhouse gas reduction and associated energy impacts.
  - 4.1.4. Submit manufacturer specification sheets for the major components (heat pumps, motors, pumps, control systems, etc.) of the gas boiler and the electric boiler systems.
- 4.2. A complete incentive Application consists of a signed Application, items 4.1.1 through 4.1.4 and all supporting materials or documentation.
