

**Small businesses serve as the cornerstone of our community. That's why it's important that we provide support to help your business thrive by reducing operating costs. We can help you identify energy-saving opportunities by providing a free energy survey. We'll include recommendations on energy efficiency improvements, identify potential rebates and calculate the payback period. As a small business, you may also be eligible for a 35% bonus on your rebate.**

## GET STARTED

Schedule a free energy survey with an SVP energy engineer to identify energy efficiency opportunities within your facility. The energy survey includes an examination of energy-using equipment at your facility. You will receive a detailed report listing potential energy-efficient improvements. The report will also contain a financial analysis of each measure, taking into account any available SVP rebates.

## BONUS INCENTIVE

We offer a one-time enrollment bonus of 35% on top of the standard HVAC and lighting rebates. Lighting projects must be completed within 6 months of program enrollment and HVAC projects must be completed within one year of enrollment.

## EXAMPLE PROJECTS

- ✓ Lighting
- ✓ HVAC
- ✓ Advanced Rooftop Controls
- ✓ Process equipment
- ✓ Food service equipment
- ✓ And more!
